

The PROSTITUTION MYTH

***It's
the
world's
oldest
profession.***

The UGLY TRUTH

It's a dangerous form of exploitation.

The vast majority of prostituted persons are recruited into the sex trade by pimps who use the threat of violence to force them to meet daily quotas. Over 80% of prostituted women have been the victim of a rape. And prostituted women are at least *18 times* more likely to be murdered in the “workplace” than women of a similar age in other occupations.
